

Comprehensive Dental Care: Transforming Dental Hygiene Practice through Holistic, Patient-Centered Care

A Two-Part Course: eLearning & Live, Virtual

Course Description: In this course, the participant will learn how to move beyond problem-focused dentistry and to embrace a comprehensive, holistic approach to treatment. This approach provides patients with the *Elite* standard of care they deserve and seek, while also allowing dental hygienists to practice at the height of their careers and maintain the ethical standards of the profession. Prerequisite: self-instructional eLearning via EDU. See details below.

Course Objectives: By the end of this course, the learner should be able to

1. Describe comprehensive dentistry.
2. Explain the importance of comprehensive care in dentistry.
3. Explain risk management and how it relates to comprehensive care.
4. Identify key ethical principles guiding dental hygienists in the delivery of comprehensive care.
5. Apply the Standards for Clinical Dental Hygiene Practice.
6. List the components of the comprehensive workflow for dental hygienists.
7. Demonstrate effective treatment presentation.

Our Speakers...

Cherie Score, LDH

With over 30 years in dentistry, Cherie combines clinical expertise and operational insight. A Normandale College graduate, she has advanced training in occlusion, dental technologies, and cosmetic dentistry through LVI Global and the Scottsdale Center for Dentistry. Since joining EDP in 2024, Cherie has driven strategic hygiene initiatives, mentoring and empowering dental teams as a passionate Hygiene Business Strategist. She serves on Herzing College's Dental Hygiene Advisory Board and is an active member of the ADHA.

Tiffani Schick, BSDH, RDH, FADHA

With over 20 years in dentistry, Tiffani began as a dental assistant before earning her dental hygiene degree from Southern Illinois University Carbondale in 2008. Her career spans private practice, academia at the University of Colorado School of Dental Medicine, and community health work at a Midwest FQHC. Since 2020, she has advanced clinical excellence and professional growth as Director of Dental Hygiene Development in the DSO space. Tiffani also contributes to public health as a volunteer clinician and editorial panel writer on health equity and dental technology.
